Profile

Product Designer with **3+ years in fintech**. I design web and mobile banking experiences, including dashboards, admin tools, and referral programs. I work across UX, UI, prototyping, and design systems, partnering with product managers and engineers through implementation.

Experience

Product Designer
2023 — 2026

Access Softek, Inc. · US fintech · White-label digital banking for credit unions

- Designed web and mobile banking interfaces, including dashboards, admin tools, and referral programs.
- Turned business requirements into user flows, wireframes, interactive prototypes, and final UI designs.
- Explored and refined solutions with product managers, engineers, and other stakeholders.
- Created reusable UI components and contributed to design systems across products and platforms.
- Prepared design specifications and reviewed implementation quality with engineers using DevTools.

Freelance Product Designer
2022 — present

Client projects · Brand & web · Europe and the US

- Designed client websites from discovery and user flows to final UI and developer handoff.
- Created brand identities, visual systems, and reusable component libraries.

Product Designer · contract
2021 — 2022

Large-scale travel product · Web, iOS, Android

- Iterated on search, checkout, and profile flows and contributed to a design system for web, iOS, and Android.
- Developed and tested design hypotheses with cross-functional teams across three platforms.

Skills

Design: Figma, UX/UI design, interaction design, user flows, wireframing, interactive prototyping, design systems, user research, web and mobile design, accessibility.
